

### Main

|                              |                                |
|------------------------------|--------------------------------|
| Device short name            | MX                             |
| Product or component type    | Voltage release                |
| Device application           | Control                        |
| Range compatibility          | Masterpact NW<br>Masterpact NT |
| Voltage release type         | Shunt trip release             |
| [Uc] control circuit voltage | 24 V AC<br>24...30 V DC        |

### Complementary

|                            |              |
|----------------------------|--------------|
| Threshold tripping voltage | 0.7...1.1 Un |
| Supply holding power       | 4.5 W        |
| Mounting mode              | Fixed        |
| Response time              | 50 ms        |

### Contractual warranty

|                 |           |
|-----------------|-----------|
| Warranty period | 18 months |
|-----------------|-----------|
